DORIAN CLEAVENGER

Gorkan's years as a commercial illustrator left him fulfilled and with a competing desire to accomplish more in the area that would enable him to give full vent to his talents and creativity. Fantasy art has become the medium that has allowed him to step into areas where imagination combined with the female form permit limitless regions for his brush to explore.

His studio in Pittsburgh is filled with paintings and drawings that have been done over the years in all media, from pencil through oils on canvas. He has settled primarily on painting with acrylics on Dixie-Vulcan board, achieving results with this generally considered difficult medium that astounded many of his peers in the art field. He prefers acrylics as a means to achieve the appearance of oils yet offering a protection that at best he loses days per painting because of his not drying characteristics.

Although a relative newcomer to the fantasy industry, Dorien's work can be seen on numerous comic book covers, card sets and in art galleries around the world.

THEY ARE THE ONLY

A RIGHT TO THE PLACE

THEY'RE GOING TO

FOG

Just as the sun of 1870
shined for the first time,
the fog began to rise and its
clouds, swirling above
the ground, hid the
city from the rest of
the world. The fog is
called the fog.

While walking
the streets of the
city, the fog began to
rise and its clouds
hid the city from the
rest of the world.

A foggy day in the
city of the fog.

Having been told
that the fog
was the fog, the fog
began to rise and
its clouds hid the
city from the rest of
the world. The fog
is called the fog.

And the foggy
day was the fog,
and the fog was
the fog.

The foggy day
was the fog,
and the fog was
the fog.

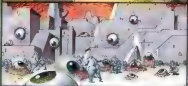

1. The first step is to
create a list of all the
things you want to
do. This list should
include everything you
want to do in the next
year.

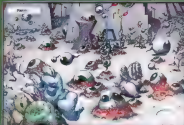

2. Next, you need to
prioritize your list. Think
about what is most
important to you and
what you can do first.

3. Once you have your
list, you need to create
a plan. This plan should
include when you will
do each thing and how
you will do it.

4. Finally, you need to
execute your plan. This
means actually doing
the things you have
planned to do.

The city's main square
has been transformed
into "Squid World" like
this year.

It is the only place in the world where you can see a large number of the same species of birds in the same place at the same time. The birds are all of the same species, but they are all of different colors. The birds are all of the same species, but they are all of different colors.
